

# 16th Naples Workshop on Bioactive Peptides

The exciting role of peptides in life-science

## PEPTIDE SHOWCASE

---

**Peptide Showcase** is intended as brief (15 minute) oral presentation from companies developing innovative peptide therapeutics and related innovative technologies.

This rapid and compressed format is designed for quick introduction between symposium participants to new peptide based products and new technologies, and companies.

The presentation should be structured to highlight the value of the technology or peptide based therapeutic being offered and the business strategy.

Peptide showcase is scheduled on the second day of the workshop (Friday June, 8<sup>th</sup> 2018) to ensure full participation by the Workshop attendees.

Together with participation to Peptide Showcase the company will be recognized in advertisements and online and by the 200 attendees that go through the Workshop from 7<sup>th</sup> to 9<sup>th</sup> June 2018.

For an investment of **€ 3.000,00** you will receive:

- ***15 minutes Plenary presentation to advertise new products and technologies***
- ***1 free Full Workshop Registration***
- ***Logo recognition on the Workshop webpage***
- ***Recognition space in the Workshop Abstract Booklet***
